WEBSITE DESIGN

Get your new site up or refresh your existing site and be on your way to reaching your marketing goals quickly and easily.

Custom WordPress Web sites include:

1. Two unique design choices based on your input including photos, color scheme, and navigation — mix and match elements among designs
2. Basic Search Engine Optimization (SEO)
3. Blog or News page and Home page slideshow
4. Mobile (responsive) design
5. Advice and set up of hosting and e-mail
6. Advice on marketing your site so people will use it

Update the site yourself or choose a hands-off approach
